### **POLICY MEETS ENVIRONMENT** **Shaping Community Health with Strategic Planning**

The Alcohol Policy Panel of San Diego County invites you to attend a luncheon on April 14, 2023 featuring keynote speaker Sean Haley, Ph.D., MPH, of the CUNY Graduate School of Public Health and Health Policy.

Dr. Haley will provide an overview of changes to alcohol availability nationally and in California. This important look at the state of alcohol policy will examine the implications of greater alcohol availability on youth access, health disparities and population level health outcomes.

He will discuss alcohol policy's relationship to population health and offer possible opportunities for decision makers and community advocates to reduce alcohol related harms.

*The Alcohol Policy Panel of San Diego County is funded by the County of San Diego Health and Human Services Agency.*

Dr. Haley holds advanced degrees in Public Health Policy and Administration and Social Policy. His research explores implementation and policy factors associated with substance use disorder prevention and treatment access.
